Representative Alex. Brown, of this county, one of the old soldiers of the lower branch of the General Assembly, introduced in that body on Monday a resolution requesting the Adjutant General of the State to furnish the House a list of the available men of this State who are ready at a moment's warning in case of war with Spain should be desired.

BURDEN SCHMIDT.

WEATHER SIGNS.

If there was nothing else to prove the frailty of poor humanity it would be evidenced before this possibility of a doubt by the fact it sticks to the weather. We pile up signs that "never fail" to the point where they are "never failing" indications. The weather is to be an "open" one. The weather is to be an "open" one.

Preparations for War.

It is clearly evident that President McKinley, throughout the whole army and naval forces of the United States, is making great preparations for war. All the coast forts and ships are in active preparation for defense, new guns being placed, magazines filled, the forces increased, the war vessels of every grade, also and kind, are being prepared for war. The United States is to be an "open" one. The United States is to be an "open" one.

no legislation accomplished. The Governor has two days to consider each bill passed by the House, and it will be understood that he will return most, if not every one of the more important bills, and then come the roll of passing such bills by the House, and it will be understood that he will return most, if not every one of the more important bills, and then come the roll of passing such bills by the House.

The fiscal election bill.

called by the Governor, the bill has passed both Houses, and the Governor has until next Thursday to consider it. This is decidedly the most important bill of the session, and while it appears that the friends have the votes sufficient to pass it, yet it is by no means certain that it will become a law.

The New Option Law.

No War.

The newspapers are full of war and rumors of war, and all kinds of reports calculate to excite and inflame the public mind; but it is not to be feared that the people are so easily misled. The people are so easily misled. The people are so easily misled.
